## COINS & MEDALS.

To facilitate a rapid despatch of business and insure accuracy in every branch, our large trade is divided into several departments, each under a responsible head, and satisfaction guaranteed in every case. All goods we sell are warranted genuine, and a written guarantee given when required.

### RETAIL STORE.

Here we shall be happy to see any of our friends visiting New York. Although it is impossible to find room in one building to have all our immense stock displayed, still we are always pleased to show any special line in which our visitors are interested.

### MAILING DEPARTMENT.

Collectors favoring us with their orders by mail may always rest assured that their wants will receive immediate attention, and secure the same careful and intelligent consideration as if they personally selected the goods ;—it being a standing rule of the firm that “first come, first served,” letters being answered in the order and on the day they are received, and the best specimen in stock, of those graded at same price, invariably given.

### AUCTION DEPARTMENT.

Our great experience in catalogueing coins and foreign stamps, for sale at auction, justifies us in soliciting correspondence with parties owning valuable coins of these, or kindred works of art or antiquity, which they may wish to dispose of at public auction, our terms being as low as is consistent with proper regard to our interests. Possessing the leading papers in these lines (50,000 circulars) and our acquaintance with a very large number of collectors, gives us the means to secure the representation of nearly every American collector.

### COMMISSION DEPARTMENT.

We have competent representatives at every sale to which we are invited, and are prepared to execute commissions to purchase for cash at the following rates, personally guaranteeing the genuineness of all goods purchased. On purchases under \$100, 10% ; over \$100, 5% ; a uniform charge of 50 cents made on any amount under \$5.

### PUBLICATION DEPARTMENT.

Our various coin publications have been published in connection with our other book business, and are all kept securely packed, ready for mailing, and sent post free on receipt of order. We annex a list of a few which should be in every collector's hands.

# PREFACE.

---

The increasing demand for coins which relate to the American Continent, has induced us to compile the most complete list which has ever been presented to Numismatists in such condensed form. We have exerted ourselves to the utmost in obtaining all the data, and in perfecting as well as simplifying the series of North, South and Central America; arranging all so that the veriest amateur may at a glance discover what is necessary to complete his set of any series. Not having the space to devote to the fuller illustration of each State or Country, we must refer the reader to the COIN CHART MANUAL for numerous cuts, which are indispensable to the collector.

The prices of the coins of the United States and Great Britain have been fully revised; the resumption of specie payments having been very beneficial in enabling us to decide which *really* are rare coins, and the distinctions thereby formed, we are satisfied, will continue to be appreciated as a standard for some time to come.

We always have in stock fine crowns and minor coins of extinct European principalities, etc., varying in date between 1500 and 1800, which we can sell at much lower prices, than the cost of importation.

Ancient Greek and Roman, Gold, Silver and Bronze coins, from 1500 to 2500 years old, we can always furnish to those interested in antiquities; Bronze coins ranging from 25c. to \$5 each, Silver from 50c. to \$10, Gold from \$6 to \$30 each; all having full descriptions and are *authentic in every particular*.

Parties wishing to dispose of any of the following coins, can find a ready market with us, remembering that *we cannot make offers for any of the pieces mentioned below, without a personal inspection of them*; from this rule we never deviate, as the value of a coin consists in its perfection as well as rarity, and a rubbing or written description only entails unnecessary correspondence by which nobody would profit.

SILVER DOLLARS.—1794, 1796, 1797, 1804, 1836, 1838, 1839, 1851, 1852, 1854, 1855, 1858.

HALF DOLLARS.—1794, 1796, 1797, 1801, 1802, 1815, 1852, and 1836 with *milled* edge.

QUARTER DOLLARS.—1796, 1804, 1823, 1827.

TWENTY CENT PIECES.—1877, 1878.

DIMES.—1796, 1797, 1798, 1800, 1801, 1802, 1803, 1804, 1809, 1811, 1822.

HALF DIMES.—1794, 1795, 1796, 1797, 1800, 1801, 1802, 1803, 1805, 1846.

SILVER THREE CENT PIECES.—1863, 1864, 1865, 1866, 1867, 1868, 1859, 1870, 1871, 1872, 1873.

Patrons who desire information concerning coins in their possession, will, by either sending the coins or *good* rubbings, be answered in the COIN COLLECTOR'S JOURNAL; letters of inquiry *must* be written on separate paper from that containing business communications. We are obliged to enforce this rule as much for the benefit of our correspondents as for our own convenience, otherwise it would be impossible to answer each of the several hundred letters we daily receive, without delay and error, which task has been accomplished every twenty-four hours for many years past, by the perfect organization of this department.

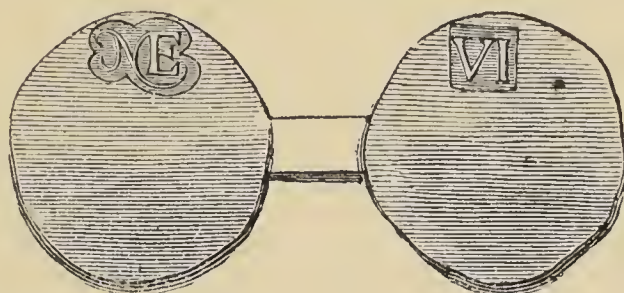

Students in the science of Numismatics will do well to obtain a copy of THE COINAGES OF THE WORLD, one of the latest works on the subject, and being illustrated with numerous engravings of coins of all nations, ancient and modern, conveys a vast amount of information not found in any other form. As a work of reference it is invaluable. An advertisement of it will be found on another page.

THE  
**COINAGES OF THE WORLD,**  
ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

**CRITIQUES.**

*The New York Times of December 27th, says:*

“What every student of Coinages—not the mere collector of old coins—wants to know.”

*The New York World of November 27th, says:*

“Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference.”

*The New York Evening Post of November 29th, says:*

“A work of great interest to numismatists and collectors of coins. \* \* \* The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries.”

*The New York Daily Graphic of December 23d, says:*

“Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference.”

*The American Journal of Numismatics of January 1st, says:*

“This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared.”

*The Coin Collector's Journal of January 1st, says:*

“This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Ægina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Græcia Magna to Rome, and so down through the Byzantine Empire to Mediæval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of a world, and should be in every house.”

COLLECTORS.

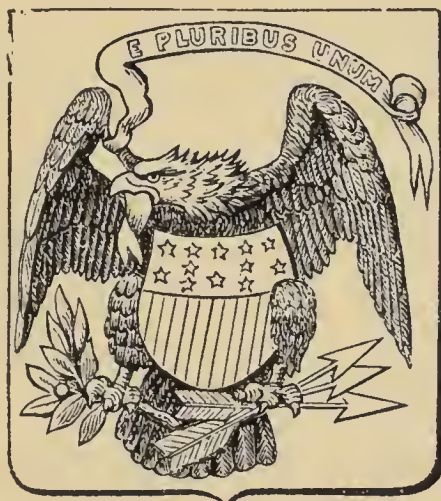

"The pursuit and study of the Fine Arts in their various branches, have been a source of constant enjoyment to me in the intervals of business, and often of great solace and relief at trying periods, and this alone would be a pleadable indemnification for my investments, should they fail to be commercially reproductive. It is said that Collectors usually have long lives, and I cannot help feeling that the cheerful exercise of the mind and body which belongs to the pursuit, warrants the assertion; and I hope in due time to say, *probatum est*.

## News of the Quarter.

The first quarter of the year is usually prolific in new issues, and the one just passed is no exception to the rule. First, in point of order, are the new issues of Cuba and Porto Rico; but before enumerating these we will give illustrations of the stamps of Antioquia and Transvaal described in our last issue:

The full set of the latter is as follows:

1 penny, brown.  
3 pence, claret.

4 pence, pale green.  
6 pence, dark brown.

1 shilling, green.  
2 shillings, blue.

BHOPAL.—We have just received another value of the last issue of this State, same design as before. The lot now consists of

$\frac{1}{4}$  anna, green.  $\frac{1}{2}$  anna, red.

CUBA.—This set consists of the same values as last year, and the old design is retained, the only difference being in the colors and date.

5 cents. peseta, dark olive.	12½ cents. peseta, carmine.	50 cents. peseta, grey.
10 " " orange.	25 " " blue.	1 peseta, brown.

PORTO RICO.—Here, again, the old design and values are employed, and, as last year's set has never been correctly catalogued, we enumerate them here.

1878.

5 cents. peseta, bistre.	15 cents. peseta, lake.	50 cents. peseta, blue.
10 " " chocolate.	25 " " green.	1 peseta, bistre.

1879.

5 cents. peseta, lake.	15 cents. peseta, black.	50 cents. peseta, blue.
10 " " brown.	25 " " blue.	1 peseta, grey.

PHILIPPINE ISLANDS.—Still continuing with the Spanish possessions, we annex a list of the stamps of these islands, of the Alphonso type—"Filipinas" above, without ornaments at ends. We may add that we think it very doubtful if those marked (?) are anything but essays:

12½ mills. de peso, violet.	100 mills. de peso, green.
25 " " black.	(?) 100 " " carmine.
(?) 25 " " green.	125 " " blue.
(?) 0.0625 " " lilac.	(?) 200 " " pink.
(?) 50 " " "	250 " " brown.

MEXICO.—Perhaps the most interesting item of our budget is the list of new stamps for this country. The design, as will be seen from our engraving, is well executed, the portrait of Juarez striking if not particularly original, and the colors bright and well selected. The colors and values to hand so far are:

1 centavo, brown.	5 centavos, vermillion.	25 centavos, carmine.
2 centavos, lilac.	10 " " blue.	50 " " green.

DECCAN.—Envelope stamps have been issued for this State—which, by the way, should be called Nizam. Our engraving (the centre one) renders a detailed description unnecessary. The colors are :

$\frac{1}{2}$  anna, red.

1 anna, dark brown.

EGYPT.—Two hideous stamps are now before us, issued provisionally by the Government of this country, and they well represent the rulers who issue them. The stamps are formed from our old acquaintance, the current 10p. stamp, nearly covered by three large surcharges, a numeral of value in centre, with “Paras” on the left and Arabic inscription on the right.

5 paras, violet.

10 paras, violet.

One value of the new issue having already appeared, the above are likely to become quite scarce. The new comer, as will be seen by our engraving, is of the same general design as the old one, and being well printed is quite effective.

5 paras, brown.

BOLIVIA.—The series of postals prepared for this country in 1876 are now in active use. We are sure they will be welcomed by philatelists—the blank spaces intended to hold them being an eyesore to most collectors. The colors are :

5 centavos, blue.

20 centavos, green.

10 “ orange.

50 “ carmine.

DUTCH WEST INDIES.—A  $2\frac{1}{2}$  gulden stamp of the same design as the rest of the series has been issued by these colonies, that for *Suriname* having a violet centre in a brown frame, while the colors of the stamp for Curacao is orange head in a green frame.

MAURITIUS.—Specimens of the long-expected new type for this colony are now before us. They bear the conventional profile of Queen Victoria, to left in different frames for each value.

4 cents, orange.

25 cents, bistre.

New 50-cent envelopes have also been issued, similar to the old ones, but without the scalloped edge and value on reticulated instead of white ground.

ORANGE FREE STATE.—A new value of the same type as before has been added to the stock of this country:

5 shillings, green.

FALKLAND ISLANDS.—A stamp of another value has been received from this island.

1 shilling, pale brown.

PORTUGAL.—We have received stamped envelopes from this country. The design is the same as the adhesive, but the colors have been changed. Each value is on two sizes of envelopes, which are made of thin buff paper.

25 reis, blue.

50 reis, carmine.

ROUMANIA has added a new value postal to its set, continuing the same design.

30 bani, bright red.

BAVARIA.—The colors of two of these stamps have been altered; they are now:

5 pfennig, brown.

50 pfennig, violet.

PERU.—The 1 centavo is now in active use. The design consists of sun in glory in oval frame, inscribed “Correos del Peru” and value.

1 centavo, orange.

FRANCE.—Two new chiffre taxe stamps have lately been issued. Same design as before.

30 centimes, black.

60 centimes, blue.

DENMARK.—This country has also added a new value to its set; same design as current series.

5 ore, blue and carmine.

VICTORIA.—We have to chronicle a new envelope for this colony; design similar to 2-penny envelope; pink. It is impressed in right upper corner of white and deep-blue unwatermarked envelopes.

1 penny, green.

UNITED STATES OF COLOMBIA.—The old 25 cent “sobreporte” of this state which has remained current longer than any other stamp in the country has been changed at last, the same design being now printed on white.

25 centavos, emerald green.

TOLIMA.—This State has also issued two new stamps, a five cent consisting of a large figure of value enclosing arms, it is printed in a rich shade of brown and is a very effective stamp. The 10 cent is after the general style in use in these States having the arms in central circle inscribed, CORREOS DEL EO ES DEL TOLIMA EE. UU. DE COLOMBIA.

5 centavos, brown; 10 centavos, blue.

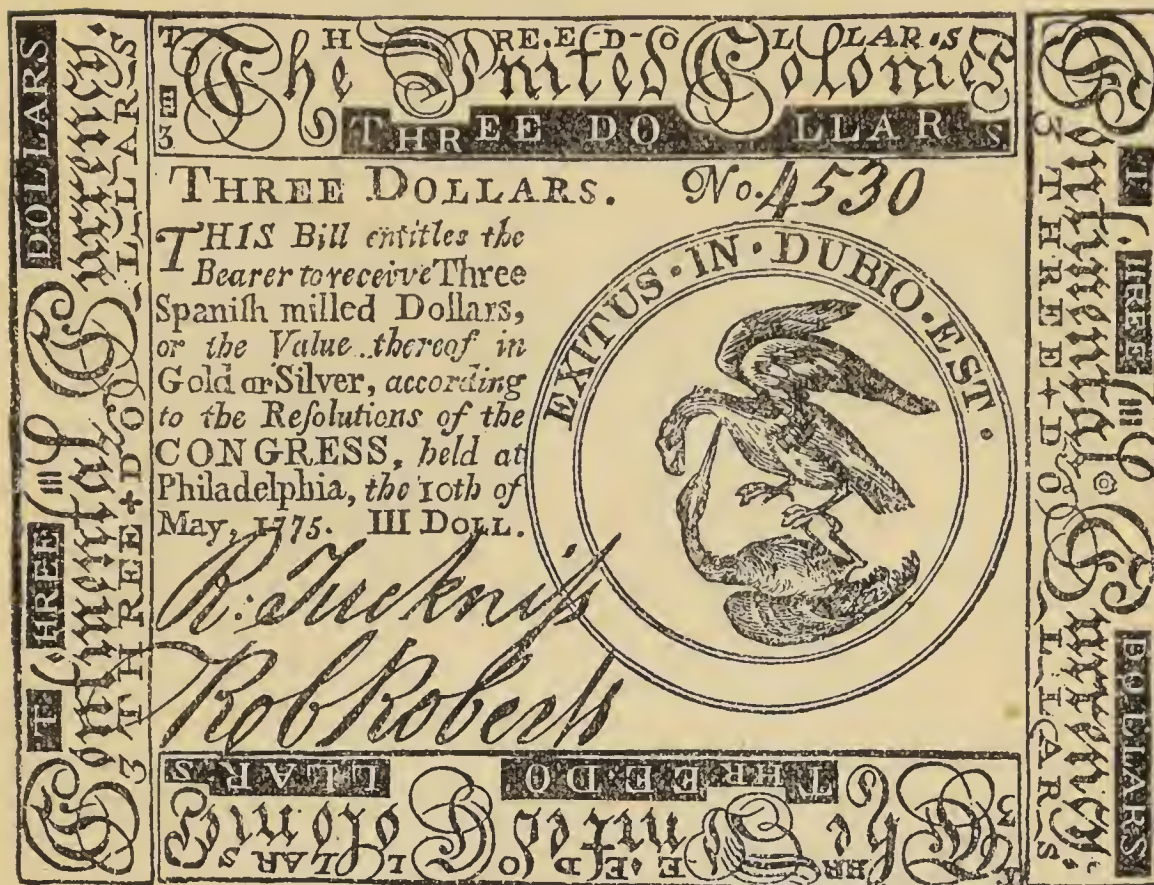

SALVADOR.—Quite by surprise we have received specimens of a new issue for this country. The design consists of national arms on shield in lined disk in oval band inscribed, UNION. POSTAL UNIVEREAL REPUBLICA DEL SALVADOR, numerals of value and c in alternate corners.

2 centavos, red; 5 centavos, blue.

Messrs. SCOTT & COMPANY

*Take great pleasure in announcing to the public that they have issued this day a work of great value to all interested in the history of their country, entitled*

**“Colonial Continental Confederate Currency,**

*“ Their present market value.*

*“ To which is added a complete Price List of*

**U. S. Fractional Currency.**

**Price - - - - 50 Cents.**

It would be impossible at this date to claim that the list is perfect, but great care has been taken in its preparation, and every known variety of all the different kinds of paper money which have circulated in this country, has been tabulated according to date, so that any note is easily found, while the numerous full sized illustrations of Colonial and Continental money give material aid, likewise add interest to the book for the general reader. As an instance of its completeness we may call attention to the fact that 74 pieces of U. S. Fractional Currency are catalogued, while the highest number heretofore chronicled was only 48.

Besides being valuable as a check list of all uncurrent money issued by authority in this country, it is a comprehensive price list of Messrs. Scott & Company's large stock, the prices of which have been placed as low as the great and increasing demand for these interesting mementoes of our country's struggles for existence will admit of.

# NEW EDITION FOR 1879 OF THE STANDARD SILVER COIN CATALOGUE.

The great fluctuations in the value of American Silver Coins during the past year has made a new catalogue an absolute necessity to all amateurs who are collecting the United States silver series. The discovery of 400,000 half dollars at Economy, Pa., has had the effect of materially reducing the value of the dates of which it consisted, while the stimulating effects of the large number of the commoner issues thrown on the market has started many hundred new collections, with a proportionate demand at higher prices for rare dates.

Large 8vo, 48 pages, price 25 cents; or bound up with the Standard Copper Coin Catalogue, post free, 50 cents.

## THE SCHIEFFELIN COLLECTION OF GREEK, HEBREW, ROMAN & OTHER ANCIENT COINS.

Scott & Co. beg to announce that they are now prepared to supply catalogues of this magnificent collection of coins with *printed prices* of amount realized for each lot, and as this is the largest and most complete collection of ancient coins ever sold in the United States, it is an invaluable guide to the collectors of these imperishable monuments of antiquity.

"The medal, faithful to its charge of fame,  
Through climes and ages bears each form and name;  
In one short view subjected to our eye,  
Gods, Emperors, heroes, sages, beauties lie."—*Pope*.

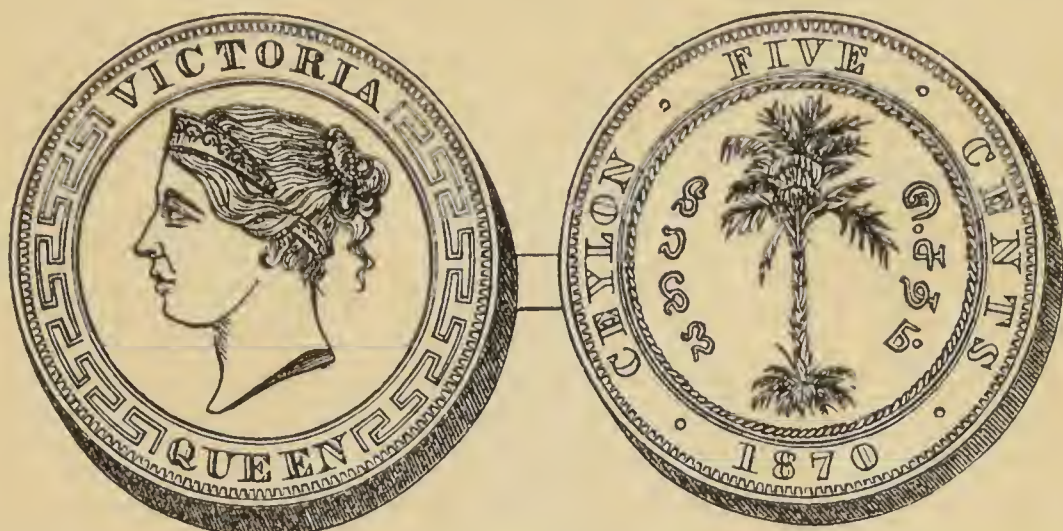

The catalogue consists of 159 closely printed pages, and will be sent post free on receipt of \$1.50; or with photographs of 100 of the rarest pieces, price \$2.50.

Issued May 5th.

# ILLUSTRATIONS OF COPPER COINS,

This long-promised work has at length been completed by the artists and printers who have been working on it for the past year, and is now ready for delivery. We believe its beautiful appearance will amply repay the disappointment experienced by the many amateurs who have been so long watching for its appearance.

The work consists of twenty-four beautifully engraved plates representing a large number of Copper Coins, carefully selected from all parts of the world, and representing the coinages in this metal from the Roman Empire to the present day. The engravings are quite distinct from those embodied in the Standard Copper Catalogue. It is designed as an elucidation of that work and as a guide to the study and arrangement of select and inexpensive collections of Copper Coins, which have not heretofore received the attention they merit, for it must be borne in mind that although the metal is base some of the greatest artists who ever lived have been employed in their production, and the designs on them represent many an important epoch in history.

## THE COIN CHART MANUAL.

It is scarcely necessary to call attention to a work which has been regularly issued for a period of nearly fifty years. Our patrons buy each succeeding number with a certainty of finding new beauties and gaining more instruction. A work of this nature requires constant revision to keep it up to the times, and the regular half-yearly editions enable us to do so.

For the information of foreigners we may add that THE COIN CHART MANUAL gives accurate representations of all gold and silver coins found in circulation with them, with their Mint value marked under each.

A  
REVISED LIST  
OF ALL

POSTAGE STAMPS

AND

STAMPED ENVELOPES.

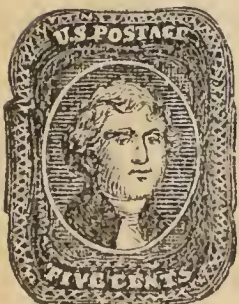

This is the only work of the kind ever published in America, and is destined to become the standard of all English-speaking stamp collectors. It contains an accurate list of every postage stamp ever issued, minutely describing every variety of color, water-mark and paper, together with all the minor details concerning the different dies of the same stamp. It is fully illustrated with about fifteen hundred engravings, and besides being the latest is the most accurate work of the kind ever printed. Numerous notes explain every doubtful point in Philately, and give many interesting details concerning the causes which led to the issue or suppression of noted stamps. Mr. Coster's valuable monograph on the United States locals is added entire, forming together a work which no collector who has outgrown the boy period of pasting stamps in a copy book, can afford to be without. It is not a price list or a dealer's advertisement in any sense of the word.

Large 8vo, 400 pages. - - - Cloth, \$2.50.

Specimen paragraph:

January 5, 1856.

Portrait of Jefferson to right, three quarter face, in oval. Ground of vertical lines. U. S. POSTAGE above. FIVE CENTS below. Col. imp., rect.  
5 cents, brown.

The several die varieties of this stamp are the result of an accident to one of the plates, by which the ornamental raised piece at the top of the frame was injured. The damaged part was removed, and the corresponding piece at the bottom taken away to make it uniform. In order to make them all the same, the entire plate was altered, and a close observer will notice the different degrees of neatness with which the alterations were made on different specimens.

### Coin Items.

In the coin line the most important event of the quarter has been the discovery by Mr. Mason of a half dollar made by the Confederate Government in 1861. Only four pieces were struck, consequently they are of great rarity and almost fabulous value. A short history of this interesting discovery has already been given in the public press, and as we have not space for full particulars now, we must defer giving all the details until next number, when we hope to be able to illustrate the piece and give all the facts concerning it. We are happy to add that there is a good prospect of the piece being restruck at a moderate price for collectors.

# THE COIN COLLECTOR'S JOURNAL.

SPLENDIDLY ILLUSTRATED.

A 16-PAGE MONTHLY. \$1.00 PER YEAR. POST FREE.

In forwarding to our subscribers THE COIN COLLECTOR'S JOURNAL for January, 1878, at the commencement of the third volume, we would take the opportunity of thanking our patrons for past favors, and urge them to continued exertions to increase the circulation of the Journal. It is the largest numismatic monthly published in the United States, and as it has now attained a more extensive circulation than any other paper devoted to the interests of coin collectors, we think it is for the interest and advantage of subscribers to do something to increase its influence.

We would remind our friends that by increasing the circulation of the Journal, the number of collectors will doubtless be much increased, and, as the number of coins is limited, the additional demand will greatly enhance the value of all collections.

The publishers have never expected to realize any profit from the subscription list; all that they hope for is to make the C. C. J. a self-sustaining means of communication for coin collectors, and therefore feel justified in looking to those benefited by it to do something to add to its usefulness in the future.

We give annexed a few reasons why every coin collector should become a subscriber:

For prices realized at every **Auction Sale of Coins** in the United States during the last two years—see *The Coin Collector's Journal*.

For the fullest illustrated description of the **Centennial Medals**—see *The Coin Collector's Journal*.

For fine illustrations of **Old Roman Coins**—see *The Coin Collector's Journal*.

For illustrations of **Chinese Cash**, with translations of all the Chinese characters found on the coins for the last two hundred years—see *The Coin Collector's Journal*.

For good illustrated description of **Old English Silver Coin**—see *The Coin Collector's Journal*.

For fine illustrations of **Modern Foreign Copper Coins**—see *The Coin Collector's Journal*.

For a full history of the **Byzantine Coins**—see *The Coin Collector's Journal*.

For illustrated descriptive articles on **French Colonial Copper Coins**—see *The Coin Collector's Journal*.

For a full description of all **United States Fractional Currency**—see *The Coin Collector's Journal*.

For a complete chronological list of all the **Roman Emperors**—see *The Coin Collector's Journal*.

For a fine engraving of the magnificent **Canadian Confederation Medal**—see *The Coin Collector's Journal*.

For full description of all **United States Cents**, beautifully illustrated—see *The Coin Collector's Journal*.

For **anything and everything connected with Coin Collecting**—see *The Coin Collector's Journal*, and let the publishers see your dollars at once.

Without counting the endless pleasure to be derived from acting or witnessing the performance of Seltz's American Boys' Theatre, the fitting up, mounting and performing these Plays will be found to give more pleasure and profit for the money than the same amount expended in any other way. All the marvelous scenic effects of the modern stage can be successfully imitated, by any boy of ordinary ability, on these miniature stages, by the exercise of a little study and patience. They have been proved of incalculable benefit in developing a boy's talent, in the various faculties called into play. His mechanical invention is brought out in constructing his theatre; his artistic genius is improved in carefully coloring the characters and scenery, and his elocution perfected in reading the speeches of the different actors.

Scott & Co. would caution the public against purchasing worthless imitations, as the Plays of SELTZ'S AMERICAN BOYS' THEATRE are the only miniature theatricals ever published, giving full directions for working, &c. Every piece of this admirable series is put together and tested by professionals before being issued to the public, insuring the correct working of every piece.

Published only by SCOTT & CO., 146 Fulton Street, New York, where everything connected with Plays can be had, wholesale and retail. F. TRIFET, 61 Court Street, Boston, Sole Agent for the Eastern States. The Plays can also be had of all Booksellers and Newsdealers in the United States, and wholesale of THE AMERICAN NEWS COMPANY.
